

SIMV-IP meeting Vaccinology Round Table

How veterinary vaccine industries and IP might collaborate in vaccinology?

1. At which stages of a vaccine project will collaborations and/or licensing discussions be most productive?
2. How can we best initiate contact?
Which information will be expected by Vet/One Health industry?
3. Which are the priorities in Veterinary/One Health industry?
4. Are there opportunities for research collaborations “around” vaccines (e.g. pathogenesis, immune mechanisms of the vaccine, etc.)?
5. What are the main expectations of Veterinary/One Health Industry from academia?
